

Mid-Term Presentation: 18 August, 2021

Presentation time: 10 minutes (including presentation flow 1, 2, 3)

Language: English

Presentation flow:

1. Two members (randomly chosen) will brief about feature, ER diagram, Project schedule
2. Then start the video.
3. Then each team member will describe their own Git commits.
4. Then **I shall use ngrok/teamviewer/anydesk to test your project live.**
5. **Submit the presentation slide in ELMS.**

Marks distribution:

1. DB Design (5 marks)
2. CRUD Operation (5 marks)
3. Git Commits (5 marks)
4. Presentation and others (5 marks)

The presentation must include:

1. Project topic
2. Motivation and feasibility
3. **Feature details**
 - a. List of already developed features and time for development
 - b. List of planned features and estimated time for development
4. **ER Diagram of database** (All features)
5. **Project Schedule** (Gnatt Chart or similar)
6. **A 2-minute video of the project**
 - a. You must implement at least one important module (Login Signup is a basic module; another one except that.)
7. **GitHub screenshots**
 - a. Collaborators (Insights >> collaborators)
 - b. Commit graph (Insights >> commits)
 - c. Git commit list of each team member (One slide per person) – **that person will describe the git commits.**

Sample figures for presentation:
